LG Technology Ventures was established in 2018 and its team consists of experienced investors, entrepreneurs, technologists, and industry domain experts. Currently, LG Technology Ventures is managing over \$400 million of fund assets and invests in early-stage start-ups in artificial intelligence, mobility, advanced materials, life-sciences, next generation display, mobile, and 5G. We strive to create value for our portfolio companies by helping them develop strategic partnerships with LG Companies.
